

Why do public health officials* recommend wearing a face shield?

LAMINET®
— SINCE 1946 —

EMS16 includes a removable, washable foam headpiece

Covers the eyes, a lesser known point of infection

Crystal-clear and non-obtrusive: Designed to block droplets without the need to adjust or itch

EMS16 FACE SHIELD

LAMINET/LAMCO face shields are **made in the USA** using lightweight, comfortable materials. Designed by healthcare workers on the frontlines, our face shields have been shipped nationwide for use in various hospital and other customer-facing environments.

A portion of all proceeds donated to the **Chicago Covid-19 Response Fund** and the **Greater Chicago Food Depository**. Please contact us for details.

*Information adapted from "Why face shields may be better coronavirus protection than masks alone" *Los Angeles Times*, 2020 April 24 <https://www.latimes.com/california/story/2020-04-24/face-shield-mask-coronavirus>

LAMINET Face Shields have been authorized by the United States Food and Drug Administration (FDA) for use by healthcare providers as personal protective equipment under a EUA issued by the FDA. There is no approval or clearance for this product under or by the FDA.

Thank you, medical workers
in Illinois + beyond
